**On Tuesday, May 22**

**8:00 AM - Sign-In, Continental Breakfast, Light Networking**

**8:30 AM to 12:00 Noon - Program**

In the first session 'Jump Starting Your Lean Journey', we will look at a powerful Lean tool to jump start your Lean journey. Whether you are new to Lean or need a boost in your implementation this tool needed in your tool box.

Next, we will review the necessity of value stream management and why any lean journey is doomed without it. Then we will delve into the tools needed to properly manage a Lean value stream.

In the second session 'How to increase flow, without adding overhead' we will be reviewing one of the most common operational challenges within manufactures today – Variability - “The New Normal”.

We will start by examining the different types of Variability and associated business performance issues. Next, we will introduce you

to a low risk, simple but powerful approach to alleviate the effects of Variability in your company, on and off the shop floor.

**FREE to ANY employee of a member-company,  
just \$20 for general public.**
