MANUFACTURING TECHNOLOGY INSIGHTS HONORS E.M.M.A. INTERNATIONAL CONSULTING GROUP, INC. AMONG THE TOP 10 LEAN MANUFACTURING SOLUTIONS PROVIDERS OF 2017

Farmington Hills, MI, April 12, 2017 – Manufacturing Technology Insights Magazine has ranked [E.M.M.A. International Consulting Group, Inc.](#) (E.M.M.A. International) among the top 10 lean manufacturing solutions providers of 2017. E.M.M.A. International was selected for their evidence-based solutions and systemic fixes to avoid recurring quality, regulatory, and compliance non-conformities, while informing and educating their clients through every step of the way.

E.M.M.A. International has a proven track record for methodically helping clients combine a Lean program with quality-centric process improvements. In essence, “we aim to help our clients achieve operational excellence, while maintaining compliance with applicable standards and regulations”, said Dr. Carmine Jabri, President/CEO. By teaching companies how to implement lean strategies, E.M.M.A. International helps their clients get ahead of their competitors by utilizing proven methods to improve business outcomes.

E.M.M.A. International recognizes that when companies implement lean strategies they are able to deliver high-quality products and fast services, along with producing less waste. Although lean thinking is applicable to all of the industries that E.M.M.A. International works with, the firm is most recognized for its work in the Medical Device field.

Along with honoring E.M.M.A. International, Manufacturing Technology Insights Magazine also highlighted a feature story, [E.M.M.A. International Consulting Group, Inc.: Quality and Compliance Simplified](#), showcasing the services and solutions that led to the selection of E.M.M.A. International being named among their top 10 lean manufacturing solutions providers of 2017.
